

TAKING CARE OF YOUR NEW TATTOO:

A professional tattoo artist has done your new tattoo. It is up to you to keep it clean to prevent any issues. Just follow a few simple steps. If you have any questions or concerns please call us immediately.

- 1. Leave the bandage on between 2 and 4 hours.**
- 2. Wash your hands, and then remove the bandage. Wash your tattoo thoroughly with warm soapy water, pat it dry with a clean paper towel**
- 3. Apply a topical fragrance free lotion to your new tattoo (we recommend Lubriderm, H2Ocean Products, Aquaphor, & Curel) Do Not use Neosporin, A&D Ointment, and Vaseline.**
- 4. Wash and lotion your new tattoo twice daily. Apply lotion as often as needed to keep the new tattoo moist.**
- 5. A scab will start to form & flake within 4 to 7 days. Do Not pick at the scab, if it itches apply lotion and rub it in.**
- 6. Keep your new healing tattoo out of the sun and do Not soak it in water (i.e. tanning beds, bathtubs, hot tubs, oceans, pools, etc....)**
- 7. Your new tattoo should heal in about 7 to 10 days, everyone heals a bit different but call if you have any questions.**
- 8. Do Not Listen To Any "FREE" Advice About Your Tattoo (especially in a bar) Again please call us for any questions or concerns.**
